

Third Annual Women Transforming Technology Conference – Registration Now Open

VMware, Cloudera, Mozilla, Stanford Clayman Institute for Gender Research, Code2040, and Workday to Further Discussion and Enhance Visibility for Next Generation of Female Leaders in Tech Industry

PALO ALTO, Calif., March 2, 2018 - VMware, Inc. (NYSE: VMW), in partnership with Cloudera, Mozilla, Stanford Clayman Institute for Gender Research, Code2040, and Workday today announced that registration is [open](#) for the third annual Women Transforming Technology (WT²) Conference. Taking place on Tuesday, May 22, 2018, this world-class community event is designed to continue the important conversation on advancing women in the workplace across the tech industry. It will host more than 550 attendees, ranging from students to executives from industry, academia and nonprofit organizations.

Featuring inspiring role models that have shattered the “glass ceiling” in a male-dominated industry, the WT² Conference will cultivate a supportive environment for women in the Silicon Valley technology industry. This year’s keynote speakers will be Laila Ali, entrepreneur, athlete and advocate for equality; and Megan Smith, the first female chief technology officer for the United States. Additional breakout sessions will showcase thought-provoking speakers on the most pressing topics for women in technology. Sessions will be broken down into five tracks based on technical and seniority level including:

- **Emerging Leadership** – for the professional who would like to focus on developing their personal brand and gaining insight into their individual leadership style
- **Executive Leadership** – for the more seasoned professional who is already in the managerial track and wanting to advance to the next leadership level
- **Technical** – for professionals interested in tools to advance their careers
- **VP+ Breakout (Invite only)** – content designed specifically for VPs and above
- **Diversity & Inclusion** – opportunity to learn and share best D&I practices

“Women are key components of the development of today’s – and the future’s – technology industry,” said Betsy Sutter, corporate senior vice president and chief people officer, VMware. “This year’s WT² Conference is more timely and important than ever before, and we are looking forward to the meaningful discussions that will contribute to transforming the industry as a whole.”

Registration is now open to the community. For more information about the WT² Conference, please visit: <http://www.womentransformingtechnology.com/>.
